

App 4 Independence Research Study

Participate in a series of 3 service provider focus groups exploring how an app for individuals who experience opioid use disorder could be helpful.

The smart phone app is designed to:

- Connect people with addictions with their care providers
- Facilitate peer-peer support
- Provide evidence-informed strategies and tools

The focus group is for people who:

- Are 18 years old or over
- Read and speak conversational English
- Are currently in a professional role providing support to individuals with opioid use disorder, such as a nurse, psychiatrist, social worker, addictions specialist, peer support, etc.

Focus groups will take place either in person at a CAMH downtown site or virtually on the Webex platform. Participants will be reimbursed.

If you or someone you know would be interested in an app like this, please contact Jessica D'Arcey, Research Analyst, at 416-535-8501 Ext.39503 or drop us an email at A4i@camh.ca
